

Memorandum

DATE: December 6, 2018
FROM: Product Engineering
SUBJECT: No Harmful Silicone Oils, Alcohols, or PDMS Compounds in 303® Aerospace Protectant

303® Aerospace Protectant is a water-based technology that does **NOT** contain any harmful solvent soluble silicone oils, alcohols, or solvent soluble PolyDiMethylSiloxane Fluid (PDMS). 303® Aerospace Protectant has been tested and proven compatible with rubber, vinyl, and finished leather surfaces. 303® Aerospace Protectant conditions and protects compatible surfaces from dry rotting, cracking, and fading and leaves a like-new, matte finish appearance.
